Social Studies

We studied about the Solar System this week. The "K" Kids were very excited to create a space ship and control center in our classroom. We have jet packs, space food, and even a secret password each day to enter KASA (Kindergarten Aeronautics & Space Association) Headquarters! We read several space books, watched videos, and researched facts about each planet. We also spent time learning vocabulary words like: orbit, rotation, planet, sun, and stars.

On Thursday and Friday, we created the planets to build our own solar system bulletin board. Next week, we will be collecting facts about the planets and writing paragraphs about them.

Make sure and check out photos of our space station on our class website.

Math

We worked with graphs this week. The "K" Kids are doing a great job with graphing. Now we are taking graphing to the next level having them decipher information from the graphs that they have created. Along with graphing, we practiced using comparison words like 'more', 'less', and 'equal'.

Valentine Volunteers

The Valentine Party will be Wednesday February 10th at 2:00 p.m. Everyone is welcomed to join the fun. Students can bring in Valentines to share with friends any day next week. A list of the "K" Kids is on the back of the newsletter. Please have your "K" Kid do the writing. We will be passing our Valentines out prior to the party because this is quite a time consuming activity. ☺

Next Week

More about Space

No School, Winter Break

February 11-15

After Winter Break

Presidents

"Bear"y Special Person

Christina

Sincerely,

Mrs. Brockhaus, Mrs. Moneymaker and the
"K" Kids
