Language Arts*Science

Social Studies

We studied about the Solar System the past couple of weeks. You've likely heard about the space ship and mission control center in our classroom. We have jet packs, space suits, and even a secret password each day to enter KASA (Kindergarten Aeronautics & Space Association) Headquarters! We read several space books and researched facts about each planet. Last week, we created our planets and made a solar system mural.

This week, we read books and recorded facts about each planet. We worked in pairs and then individually to write facts. Check out some of our planet facts on our website...

Next Week

Presidents & Dental Health

Tuesday... Music/Computer Lab

Wednesday... PE/Library (return books)

Thursday... Music/Computer Lab

Friday... PE/Library (return books)

Math

We started Number Stations this week. To introduce these stations, we all worked with the number 5. We are working with combinations of numbers that equal 5 and writing equations to go with them. The stations will also allow students to work at their comfort level and progress at their own pace through numbers combinations to 10.

Thanks Parents

A special thanks to Lisa Witkop, Patsy Patrick, and Susan Healy for organizing our Holiday Parties this year. And a huge thanks to everyone who donated items or assisted with games/activities.

Parent-Student-Teacher Conferences

Our spring conferences are just around the corner...March 16-17. Mrs. Smith will be scheduling all of the conferences. If you have a special request for Tuesday or Wednesday or a special time between 4 pm and 7:00 pm, please let me know as soon as possible. I'll pass the information on to Mrs. Smith. Thanks so much!

Sincerely,

Mrs. Brockhaus, Mrs. Moneymaker
and the "K" Kids
