Social Studies

Monday, we read The Honeybee and the Robber. We made cute bees to buzz around our classroom. Tuesday and Wednesday, we worked with the song "Five Green & Speckled Frogs". We made frogs and a speckled log to sing and demonstrate the song. We also 'read' the song. We found the word 'the' and periods at the end of sentences. We made pointers to help us keep our eyes on the words.

Thursday, we read The Mixed-Up Chameleon and created a silly-looking class chameleon. Friday, we read Rooster's Off To See The World. We made our own matching/memory game with numbers. It would be great if we all recognized our numbers 0-10 before we start kindergarten.

Fun Activities

On those rainy or too hot summer days, log onto our classroom website for some computer fun and learning.

Math

We worked more with shapes, counting, and patterning. We had fun counting with "5 Green + Speckled Frogs". We made a number matching game to practice our numbers 0-10 at home this summer.

Thanks for Joining Us

We hope that you enjoyed your visit to our classroom. We certainly enjoyed having you join us Wednesday. It was fun getting to share our new *World of Kindergarten* with you.

See You Soon...

Thanks so much for a super fun summer session! I enjoyed working with your child each day and look forward to seeing you all in August. Our first day is August 16th. All kindergarten classes will have a brief Kindergarten Orientation for parents. Please plan to stay from 8:00-8:30 am on that first day.

Have a n-ice summer!

Sincerely,

Mrs. Brockhaus, Ms. Valentine
and the "K" Kids
